

## Temperature and humidity display IONA LITE

**IONA LITE** manufactured by Disenos y Tecnologia is an acquisition and display system for the measurement of ambient **temperature and humidity**.

The acquisition of instantaneous measurements is available through a video signal via an HDMI port.

IONA LITE is not supplied with monitor or TV but is compatible with any monitor or TV with an HDMI connection and Full HD resolution.

Unlike other existing models, IONA LITE has certain limits: it does not include data logger, Json Web server, or access via MySQL. It also does not offer the possibility to customize the logo and display external content, such as advertisements or multimedia content.
